This Month at ASHRAE Iowa

Ethics Training in October

Date: Wednesday, October 23rd at Hyperion in Johnston
Tentative Schedule:
- 4:30-5:00 Registration and Check In
- 5:00-6:00 Social/Networking
- 6:00 to 6:30 Dinner
- 6:00 to 6:15 ASHRAE Updates
- 6:15 to 8:15 Presentation
- 8:15 to 8:30 Additional Social/Networking

Professional Ethics for Licensed Engineers

To ensure the public’s safety, the Iowa Code defines the importance and expectation of ethical behavior for licensed engineers and land surveyors. Attend this interactive presentation to learn about behaving ethically and professionally in a business context, the principles behind ethical decision making and putting ethics into practice as a licensed engineer. This two-hour presentation will satisfy the State of Iowa’s PDH Professional Ethics requirement. Rita Perea will be giving the presentation.

About Rita Perea

Rita Perea is an international speaker, best-selling author, executive coach, and talent development trainer. She is preparing to celebrate her 20th year as Founder and CEO of Rita Perea Leadership Consulting, Inc.

An experienced executive herself, she has helped business owners, leaders and professionals of all types reach their next level of success and become the highest version of their best selves so that they—and their teams—can thrive in the workplace. Her Iowa-based corporate clients have included Shive-Hattery Architecture + Engineering, Principal Financial Global Investors, Nationwide Insurance, Kemin International, and Meredith Publishing Corporation. Rita’s online Professional Ethics for Engineers and Land Surveyors PDH courses can be found at the SuccessAcademy.online

Rita can be reached at www.RitaPerea.com

The 2019 Product Directory

If there are any questions, or you did not receive your directory please contact Holly Elbert at helbert@ihsae.com
Welcome Iowa Chapter to a new ASHRAE year!

We kicked things off at TCI in August with our annual Fall Frolic. Our golf committee planned and executed another successful outing. Thank you to all of our golfers, sponsors, and volunteers for making this event possible. Because of the Fall Frolic, we were able to contribute nearly $4,000 towards our Research Promotion (RP) campaign.

Our next meeting will take place on October 23rd at Hyperion Field Club in Johnston. We are very excited to have Rita Perea join us for her presentation on “Professional Ethics for Licensed Engineers”. This two-hour presentation will satisfy the State of Iowa’s ethics PDH requirement. Be on the lookout for our registration email in the coming weeks and please consider joining us on October 23rd.

In November we’ll host our annual student night in Ames. Details are still being finalized, but plan on dinner followed by a tour of ISU’s Student Innovation Center. We will also be awarding several scholarships to some well-deserving students. More details to come!

Our BOG has had a busy summer getting organized and planning another exciting year. Once again we’ll be offering excellent technical programs along with some fun social activities. We hope to see you throughout the year. Thanks for supporting your local chapter!

**What's New in the Iowa Chapter?**

**Iowa Chapter Takes Home Awards at CRC**

The Iowa Chapter had three members take home honors at the annual CRC in Milwaukee. Andrew Pospisal won the Gold Ribbon for History Award. Paul Melton received a Chapter Service Award. Justin Barrett received a Chapter Service Award. Please congratulate them if you see them!

In addition, our chapter as a whole received the following awards: Presidential Award of Excellence, Star Award, & Special Citation
ASMP-Iowa put on its annual Fall Frolic Golf Outing on Tuesday, August 7th at the Tournament Club of Iowa. We were able to raise nearly $4,000 towards our Research Promotion campaign! Congratulations to the 1st Place Team:

Jake Connor
Tyler Luttenegger
Austin Hennessey
2019 Fall Frolic
ASHRAE Golf Outing
“Shotgun Start”

When: 11:00 AM Tuesday August 27, 2019
Where: Tournament Club of Iowa
1300 Tradition Drive
Polo City, IA 50226
(See Map on Back)

Costs:
- Golf: $65.00 for 18 Holes + 1/2 a Cart
- Dinner: $35.00 Dinner (Please make checks payable to ASHRAE Iowa Chapter)
- Dinner & Golf: $100.00 Total

ALL FEES REQUIRED PRIOR TO THE DEADLINE

Send check or wire transfer to:
Jeff Hammer by Tuesday August 20, 2019
Mail to: Hett-Hammar, Inc.
529 Elm Street
West Des Moines, Iowa 50265
Attn: Jeff Hammer
Phone: (515) 277-3039
Fax: (515) 277-3039
jhammer@hetthammer.com

Register On-Line:
Registration for this event is required online. You can sponsor the event, enter all of your teammates and get your mutigame all set up prior to the event. Payment is fast and secure using PayPal (any credit card) or we can accept checks. Please have all payments in for the event no later than the registration deadline or your spot may be given to someone else.

YEA Outing

The YEA committee put on another great event on Wednesday, September 11th at Fairmeadows Park in West Des Moines. People enjoyed tailgating, yard games, and sand volleyball. Big thanks to the YEA chairs, Heidi Meyer and AG Oviatt for organizing the events. Be on the lookout for the next event. Flyer for the last event:

Research Promotion

Please consider donating to Research Promotion (RP). With the new year, we have a new goal. Any donation is helpful and appreciated. This year the Honor Roll levels are set at $150 minimum for individuals and $500 minimum for company investors. If you have any specific questions about how your donated money will be used, please contact Tjaden Ahrens.
This year, the BOG is encouraging you to donate online in an effort to save paper and increase the efficiency of the RP donation process. Please visit the ASHRAE RP Donation page [here](http://www.ashrae.org/donate). ASHRAE provides options for you to determine where to place your donation. The Iowa Chapter is looking to increase its endowment and would appreciate it if you would place your donation in the box available next to “Endowed Research via ASHRAE Foundation”, check the box indicated that you understand that those funds are restricted for the support of ASHRAE Research, and put “Iowa Chapter” in the “Existing Fund Name (If known):” box. From there it’s as simple as any other online purchase with a credit card.

Don’t forget that ASHRAE is a 501(c)(3) organization. Contributions are deductible as allowed by law. A receipt will be sent to the address listed above.

If you would still prefer to donate by check or have any further questions about the donation process, please contact [Tjaden Ahrens](mailto:tjaden@ashrae.org).

Thank you for your donation!

**ASHRAE Society News**

**Industry News**

**Winners Announced for HVAC Design, Community Design Competitions**

Take your pick: calculate and select HVAC systems for a small hospital in Hungary using Integrated Sustainable Building Design or design a self-sustaining community in Puerto Rico. These were the premises of this year’s Student Design Competition and Applied Engineering Challenge and the Setty Family Foundation Applied Engineering Challenge. The competitions’ winners were recently announced. The projects will be recognized during the 2020 ASHRAE Winter Conference. [Read more](https://www.ashrae.org/News/News-Releases/Winners-Announced-for-HVAC-Design,Community-Design-Competitions)

**33 Students Awarded $166,000 in Scholarships**

From Kansas State University to Clemson University to Technological and Higher Education Institute of Hong Kong to the University of Victoria, 33 students are working toward solving some of the world’s greatest HVAC&R challenges, thanks to ASHRAE’s Society scholarships. For the 2019-2020 academic year, 33 students are receiving scholarships that total $166,000. [Read more](https://www.ashrae.org/News/News-Releases/33-Students-Awarded-166000-in-Scholarships)

**ASHRAE Partners With Engineers Without Borders USA on Refrigeration Challenge**

ASHRAE has partnered with Engineers Without Borders USA on its Chill Challenge competition. The competition will provide up to 10 grants for the development of proof of concept prototypes for low-cost refrigerators and...
No Cranes Needed to Create Concrete Walls
There is a new way to move heavy concrete slabs—with nothing more than human hands. A set of interlocking concrete puzzle pieces can be assembled into a solid wall and staircase in about 15 minutes. Read more

Impact of Water Utility Rates on Chiller Selection
By Judith M. Peters, P.E., BEMP, Associate Member ASHRAE
Historically, a water-cooled chiller plant would deliver lower utility costs than a similar air-cooled chiller plant. This article discusses a study that compared the utility expense of operating an air-cooled chiller plant versus a water-cooled chiller plant across eight climatic zones as identified in ASHRAE/IES Standard 90.1-2016. The focus is on utility costs to the owner and the role of energy modeling in making the best possible selection. Read More

Sensing Occupant Comfort in the Workplace
Researchers at Deakin University in Australia have developed a small box of sensors that tracks temperature, humidity, air quality, light intensity and light temperature and sound levels. The devices sit on top of office desks and collect data in real time, which building managers use to gain feedback about comfort levels. The Cube Comfort Monitor device is intended to improve the management of building resources, particularly energy systems, by making it easier to identify areas in the office where comfort levels are less than ideal. ASHRAE Learning Opportunities

2019 Building Performance Analysis Conference
www.ashrae.org/BuildPerform2019
September 25-27 · Denver, Colorado

Unleash your innovative design and modeling skills, collaborate with project team members and showcase your building design to conference attendees!

Sign up NOW for the 5th Annual LowDown Showdown that will take place at the 2019 ASHRAE Building Performance Conference September 25 – 27th in Denver, Colorado.

Here's your chance to join an integrated team that will compete for fun and prizes in the annual LowDown Showdown modeling competition. This year's 2019 Building Analysis Conference (BPAC) will center on the integration of building science into the design process. Innovation in modeling and analysis will be a driving force in defining high performance buildings of the future!

In that spirit, the 2019 LowDown Showdown model building will not only challenge participants to achieve "near net zero" but also to include design and modeling elements to create a resilient building capable of withstanding natural disasters and providing prolonged emergency operations.

And the 2019 model building is:

90,000 sf town hall (new construction) located in San Diego, California
The facility will be a multi-functional building, housing many of the city’s vital public services including being an Emergency Operations Center in times of disaster or crisis.

Bring your creative ideas and analytic thinking to the table as you design a new town hall for San Diego, California.

Overview

The goal of the 2019 LDSd competition is to engage participants in a collaborative and fun learning experience that explores new advances in building science, modeling and technology. Teams are comprised of building analysts, designers, architects, engineers and other participants. Teams will be responsible for creating the architectural design and a performance analysis model based on model building data. The teams may use any software or a combination of software to complete their projects.

Each team will create and submit a poster of their building design, complete the performance analysis model and results spreadsheet and write a one-page narrative on project workflow. Teams will present their projects at the
Sign up now and be assigned to a team OR sign up with your friends and colleagues and create your own team.

The deadline to sign up to participate in the 2019 LowDown Showdown is April 1, 2019.

**Advance your Career with ASHRAE Certifications**

ASHRAE offers 7 certification programs that demonstrates a design professional’s knowledge and skills in a practice area. The certifications allow you to standout to potential clients and enhance your reputation.

**Certifications offered:**
- Certified HVAC Designer (CHD)
- High-Performance Building Design Professional (HBDP)
- Building Energy Modeling Professional (BEMP)
- Building Commissioning Professional (BCxP)
- Healthcare Facility Design Professional (HFDP)
- Building Energy Assessment Professional (BEAP)
- Operations & Performance Management Professional (OPMP)

**Learn more at:** [https://www.ashrae.org/professional-development/ashrae-certification](https://www.ashrae.org/professional-development/ashrae-certification)
